

# Adnan Hamdan

Helsingborg, Skåne County | 076-2565121 | [adnanhamdan7@gmail.com](mailto:adnanhamdan7@gmail.com) | [Portfolio](#) | [LinkedIn](#)

## PROFILE

Software Developer with strong front-end and back-end skills, C programming experience, and a focus on quality testing. Successfully delivered projects from initial architecture to production-ready code. Driven to build reliable applications and continuously grow through modern technologies.

## EXPERIENCE

### Techseed

Front-End Developer

Karlstad, Sweden

Dec 2024 - June 2025

- Architected and optimized a machine-logging platform to monitor machines.
- Developed and optimized the front-end UI and integrated it with backend APIs and machine-data services.

### Industry-Collaborative Project

Mobile Application Developer (Front-End & Back-End)

Karlstad, Sweden

Aug 2024 - Nov 2024

- Built Android UIs for dashboard, leaderboard, activity submission and view, accessibility settings, login, and registration (Java & XML).
- Implemented feature logic for leaderboard and accessibility settings in Java.

## PROJECTS

- Banking System** (in progress) — Role-based banking platform built with React, Tailwind, Node.js, REST APIs, JWT authentication, Chart.js, and MongoDB; tested using Jest.
- Chat Platform** (in progress) — Real-time platform planned with React, Tailwind, Node.js, Socket.io, and JWT.
