Helsingborg, Skåne County | 076-2565121 | adnanhmdan7@gmail.com | Portfolio | LinkedIn

PROFILE

Software Developer with strong front-end and back-end skills, C programming experience, and a focus on quality testing. Successfully delivered projects from initial architecture to production-ready code. Driven to build reliable applications and continuously grow through modern technologies.

EXPERIENCE

Techseed   **Karlstad, Sweden**
Front-End Developer (HTML, CSS, JS, Bootstrap)   Dec 2024 - June 2025
- Architected and optimized a machine-logging platform to monitor machines.
- Developed and optimized the front-end UI and integrated it with backend APIs and machine-data services.

PROJECTS

- **EasyBank** — Role-based banking platform built with React, Tailwind, Node.js, REST APIs, JWT authentication, Chart.js, Socket.io and MongoDB.
- **Terminal Portfolio with Animated Profile Card** — Interactive terminal-style developer portfolio built with React and Vite, featuring a 3D animated profile card and responsive modular design.
- **Ink & Insight** — Full-stack web app built with Angular, Bootstrap and ASP.NET, featuring authentication, real-time updates with SignalR, and full CRUD functionality.
